About Me

Innovative 3rd-year B. Tech student in AI & ML at Jayamukhi Institute of Technological Sciences. Experienced in Python and machine learning with hands-on projects. Currently, I am sharpening my skills in Python, SQL, and Excel, while learning visualization tools like Power BI and Tableau to build interactive dashboards. I believe data is most powerful when it tells a clear, actionable story.

Education

- **B. Tech in CSE (AI & ML)** - Jayamukhi Institute of Technological Sciences
Expected Graduation: 2027 | Currently in 3rd Year | CGPA: 8.62

Technical Skills

- **Programming:** C, Python, SQL, EXCEL, JAVA, DSA(Medium)
- **AI/ML Tools:** Scikit-learn, NumPy, Pandas, TensorFlow, OpenCV
- **Simulation & Systems:** Mission Planner SITL, Drone Simulation
- **Soft Skills:** Teamwork, Adaptability, Decision-Making

Projects

- **Movie Recommendation System**
Built using Python, Pandas, and Scikit-learn; implemented collaborative filtering to improve recommendation accuracy.
- **Drone & CCTV Security Surveillance System**
Designed AI-driven monitoring system integrating OpenCV for real-time Violence detection and Mission Planner SITL for drone simulation.

Achievements & Certifications

- Certificate in **Java** Programming from **Scaler**
- Participant, Ideathon conducted by **TASK** Telangana
- Participant, National Buildathon organised by **OpenAI Academy** x **Nxt Wave, India AI Impact Summit 2026**

Key Strengths

- Problem-solving mindset
- Adaptability in fast-paced environments
- Strong teamwork and collaboration
- Passion for applying AI to real-world challenges
