PROFESSIONAL SUMMARY

B. Tech CSE (AI & ML) student with hands-on experience in Python, SQL, Excel, and Power BI. Skilled in data preparation, analysis, dashboard development, and translating data into clear business insights. Built practical projects involving recruitment platforms, data analysis, and automation, with a strong focus on problem-solving and continuous learning.

TECHNICAL SKILLS

Data & BI: SQL, Excel, Power BI, Data Analysis, Dashboard Development

Programming: Python, Pandas, NumPy, Matplotlib

Databases: Oracle SQL, MySQL, Microsoft SQL Server

Productivity: Microsoft Office, Documentation, Presentation.

PROJECTS

Movie Recommendation System

- Developed a collaborative-filtering movie recommendation system using Pandas and Scikit-learn, optimizing recommendation retrieval time by 20% across a dataset of 50k+ movie ratings.
- Implemented collaborative-filtering concepts and structured the data-processing workflow for recommendation generation.

Drone & CCTV Security Surveillance System

- Designed a surveillance prototype integrating OpenCV for real-time video analysis and computer-vision-based monitoring.
- Used Mission Planner SITL to support drone-simulation workflows and system testing.

True Jobs Solutions | *Recruitment Platform Project*

- Contributed to the development of a recruitment platform focused on job discovery, hiring workflows, and application management.
 - Worked on organizing job-related information and creating a practical user-oriented platform experience.
- Applied Python, SQL, web and data-handling concepts while building and refining platform functionality

EDUCATION

B. Tech in Computer Science & Engineering (AI & ML) | Jayamukhi Institute of Technological Sciences

Expected 2027 | Currently in 4th Year | CGPA: 8.68

ACHIEVEMENTS & CERTIFICATIONS

- Participant, Ideathon conducted by TASK Telangana.
- Participant, National Buildathon organised by OpenAI Academy × Nxt Wave, India AI Impact Summit 2026.

KEY STRENGTHS

• Hands-on Learning • Time Management • Teamwork & Collaboration • Problem Solving
